Patrik Vodička
Frontend web developer

Košík.cz
Online grocery store.
2/2020 - 8/2022

Tech stack:
Docker, MongoDB, Php7, Nette/Latte, NodeJS, jQuery, VueJS 2.6 → 3,
Typescript, JS ES6+, Testcafe → Cypress, Jest → Vitest, Storybook,
Figma, AdobeXD, Inkscape, JIRA + Confluence

I designed & built the new Kosik SPA FE architecture using VueJS,
managed JIRA dashboards & engineer hiring interviews and last but not
least, I mentor, guide and support new team members.

Project examples:

Order tracking
To help customers know when and where they can expect
their order we create in-house solution using [leafletjs](#)

Upgrade from MVC to SPA
Nette/Latte/jQuery → VueJS/REST

Vue ecosystem upgrade
1. VueJS 2.6 w/ webpack 5
2. VueJS 2.6 w/ Vue CLI

3. VueJS 3 w/ Vite

Multilanguage grocery ecommerce web app
- Implementation Vue I18n
- Assets configuration for each domain
  (NodeJS pre-build process)

Storybook documentation
ReactJS tool for standalone components documentation to improve cooperation with UX designers.

Unit tests
Jest → Vitest

E2E automatic testing
Testcafe → Cypress

Ušetřeno.cz
Online comparator for energy products, loans, mortgages, mobile tariffs and much more.
9/2017 - 8/2019

Tech stack:
Docker, MySQL, Php7, Symfony, JS ES6+, jQuery → VueJS 2.6, Bootstrap4, Avocode, Photoshop, AdobeXD, JIRA

I was part of a small but very dedicated team where everybody aside of their main focus was flexible enough to solve issues from different areas. I mainly focus on FE, but I also design UI, manage JIRA dashboard and help BE engineers with some parts of their issues.

<u>Project examples:</u>

Rebrand & upgrade usetreno.cz

- complete design change
- FE architecture upgrade
  MVC Symfony/Twig/jQuery → SPA VueJS/REST

Design & development VIP clients microsites
(mostly MVC model Symfony/Twig/jQuery)

- www.cspujcky.cz
- www.elektrina.cz
- www.usetreno-zonky.cz
- …and many more

External project for fast and easy loan comparison
(model SPA VueJS/REST)
